ACKNOWLEDGEMENTS

I feel that my gratitude should be expressed first to Pavel Chvojka (Praha) and Jan Ševčík (Ostrava) for very interesting material. Thanks are due to all Managements of all visited Protected Areas for their encouragement of my research. I am especially obliged to Eva Bulánková (Faculty of Natural Sciences, Comenius University, Bratislava) for new ecological and hydrobiological literature, a check on my MS and for some constructive comments. This study was supported by the Ministry of Culture of the Czech Republic (grant MK00002327201).
